Your Safari Guide will meet you on the end of the airstrip and drive to our private campsite. Xakanaxa is an integral part of the eastern waters of the Okavango Delta. The area is encompassed by Moremi Game Reserve and boasts some of the best game viewing in Africa. The Game-Reserve has areas of dry lands rising between vast wetlands, crystal clear water channels on the edges of Mopane and Apple-Leaf woodlands. Game viewing takes place alongside waterways and floodplains. Species such as Giraffe, Zebra and Wildebeest are but a few that occur here, along with an astonishing variety of birds

We follow the Okavango River through the Lagoons of Xakanaxa and Gadikwe, deep into the permanent waters of this unique inland delta. Birdlife is prolific-Kingfishers, Fish Eagles, Ducks and beautiful Pygmy Geese being regularly seen. After a picnic lunch, we make our way back downstream to the mainland for the short evening drive and dinner.

Day 5: Savuti, Chobe National Park

We leave Moremi, crossing the Khwai Bridge to the northern bank of Khwai River. There is a quick opportunity to buy more drinks in the small village, before making our way to Chobe National Park. Due to the fact that none of Botswana's wildlife areas are fenced, game can move freely between these two wilderness areas. Hippo, Elephant and sometimes Lion are often found on this route. Moving through the Mababe depression, we relocate to Savuti where we camp in the region of the dry Savuti Channel. Game viewing this afternoon takes place along the fringes of the marsh and surrounding water holes. The area is best known for large populations of Bull Elephants-and Prides of Lion that patrol the banks of this enigmatic channel.

Your Safari Guide, Tour Leader, Driver and Cook!

At Wilderness Dawning we strongly believe that the single most important factor on any safari holiday is the quality, patience and experience of the professional guide. All our guides are passionate about Botswana and the environment in which we operate. An attitude, which is reflected in all our safaris, is the responsibility the guide has been given in showing guests the diversity of our country. We realize that for many people, a safari is a holiday of a lifetime and this is therefore a responsibility, which our guides do not take lightly.

Over the years, we have built up an enviable reputation for the recruitment, training and development of local guides, who are acknowledged to be the outstanding in their field. All our guides have deep appreciation for the wilderness and wildlife that lives there. Most importantly, our guides display a love for the region and its people. On our safaris our guests are enriched with the guide's knowledge and gain a new perspective on the country they are visiting.

Why choose Wilderness Dawning?

Botswana has a myriad of Safari Operators, all offering the opportunity of experiencing, in some manner, the wilderness, scenery, wildlife, history and culture this dynamic and richly beautiful country offers ... most have enviable reputations for delivering a holiday of unsurpassed quality.

When choosing a destination and expert to make a dream safari a reality, it is more often than not – not the price of something that differentiates one holiday from another, but what one receives in return ... Wilderness Dawning retain Guides and Safari Leaders that are unmatched in their field, Wilderness Dawning spend maximum time actually inside national parks and reserves ... not on the outskirts and most importantly, we offer the unique experience of gaining something fundamental ... an experience that endeavors to enrich our guests, guests who do not seek to be pampered and amused, but rather strive to enhance their understanding and love for Southern Africa.

A Safari Day the Wilderness Dawning Way

Guests are usually met at the airport in Maun, or Livingstone and transferred to the starting point of their safari. They are flown or driven to their first camp from where the safari commences. Typically, two game drives a day are experienced. In Game Parks, the morning game drive leaves at first light, when predator activity is expected. We return for brunch as the day starts heating up. The hottest part of the day is spent at leisure ... siesta time! Our afternoon activity departs after tea, usually around 4pm, to return in the early evening

Game drives and activities vary from one trip to the next, depending on sightings and animal activities. Generally, we drive quite far and slowly to absolutely maximize game-viewing potential. Should we be moving from one camp to another, a short drive might take in the morning and we drive through game areas to our next camp, where lunch is served.
