DAY I

You will meet your safari guide at Maun Airport, at 12h30, unless you are coming off international flights, which will generally land at 13h00. From here you will fly on a small charter plane to a landing strip near Shakawe, in Northern Botswana (380km away). From the airstrip you will be transferred by road (a 15-20-minute drive) to the Okavango Spirit Houseboat, which is moored in the 'Panhandle' area of the Okavango Delta, on the crystal-clear waters of the Okavango River.

This area is recognized as being amongst the quietest and most peaceful in the delta, due to its remoteness. There are only a handful of permanent camps and boats operating in this wilderness area, which make it ideal for our discerning guests. The houseboat will spend its nights moored along these tranquil banks. Each cabin offering guests spectacular views of the waterways, abundant bird life and wildlife spotting along the riverbanks. The upper deck (3 meters high), has a stunning dining area where your meals will be served, a small comfy lounge for reading and relaxing, a well-stocked bar and stunning sundeck - perfect for game viewing and sipping afternoon sundowners, bins at the ready.

Once on board, we will slowly make our way upstream to your first sleep-over point, where you will spend the afternoon game viewing on our smaller tender boats, and your evening taking in the breathtaking scenery surrounding you, soaking up the peace and tranquillity from your private deck or the comfort of your bed.

DAY 2

Wake up on the serene waters of the Okavango Delta. Your bedroom tucked away in an area recognized as being amongst the quietest and most peaceful in the Delta. Today gives you the exciting opportunity to get onto our smaller game viewing boats, to enjoy various activities in the area. These include bird watching and a visit to Tsodilo Hills – an absolute must see!

Tsodilo Hills is a World Heritage Site and is about 50km southwest of Shakawe, in a dry, bush-covered and softly undulating landscape. The site consists of four hills that rise abruptly, to about 400m, from the dry expanse of Bushveld. Having been inhabited for about 30,000 years, they're one of the world's oldest historical sites. The Hills are home to more than 4,000 San Bushman paintings - probably the most important collection of rock art in the world. Perhaps even more remarkable is the resonant atmosphere of spirituality that inhabits Tsodilo Hills. Several walking trails provide helpful routes around the painting sites. Among the interesting paintings are paintings of whales and penguins that suggest contact between the San Bushman and other people.

End your day with an evening sundowner cruise on the river. As the water ebbs and flows, keep an eye out for elephant eating papyrus shoots on the banks around you, listening to the last iconic call of a fish Eagle as night falls. Tonight we will park up on an island for dinner, next to a campfire, under a blanket of a billion stars. After which you can comfortably retire to bed, lapping up the night noises and the sounds of the surrounding waterways.
